ALL-IN-ONE CONNECTIVITY HUB

PMC NETCONNECT

RELIABLE | ENHANCED | EFFICIENT

Connect Everything In One Place

The Outdoor NEMA 3R rated enclosure offers a comprehensive solution with several integrated features, including a 12VDC power supply, surge suppression, and a door open sensor with email alerting. Additionally, the package includes an Ericsson Cradlepoint Router with NetCloud Manager, all of which are included in the price. This setup ensures reliable performance, enhanced protection, and efficient network management in outdoor environments.

The integrated WiFi/5G Antenna offers seamless Cellular and/or WiFi Connectivity, making the enclosure perfect for a variety of outdoor wireless applications including Security, CCTV, and Public WiFi.

Key Features

- Integrated WiFi/5G GPS Antenna
- Netcloud Manager Included!
- Ericsson Trusted Partnership

5G   netcloud™ by cradlepoint   ERICSSON

R1900/R980 Series 5G Ruggedized Router

Ericsson Cradlepoint's NetCloud Mobile Performance Service with the R1900 and R980 Series Router is a ruggedized 5G networking platform, designed to provide persistent connectivity, network security, location, and IoT services to connect everything in one place, while providing access to IT for remote management, troubleshooting and analytics.
